

# Fiber Optic Splicing Tool Kits

A LANscape®  
Solutions Product

Corning Cable Systems Tool Kits provide the craftsman with a collection of essential tools required for tasks associated with the installation, termination and maintenance of fiber optic cable. The tools used in the kits are thoughtfully assembled and are stored in high-quality cases, keeping them safe, neat and in proper working order.

## Advanced Tool Kit for the Fiber Optic Installation Professional (TKT-FIBERTECH-PRO)

This kit, with a pop-up handle and wheels, was designed by contractors, for contractors. It includes tools for preparing fiber optic cables, splice closures and fiber optic hardware. The kit also includes cable cleaners, a first aid kit, LED head lamp, safety vest, safety glasses and gloves. Contents: LST-000-060

## Fusion Splicing Tool Kit (M67-003)

This kit is designed to prepare cables and fiber for fusion splicing. It includes tools and supplies required for cable jacket removal and fusion splicing. Contents: LST-000-016. The kit includes a rugged hard shell case.

## Fusion Splicing Consumables Kit (M67-004)

Includes items to replenish the M67-003 Tool Kit. Good for approximately 600 fibers. Contents: LST-000-017

## Basic Splicing Tool Kit (TKT-SPLICE)

This kit contains tools necessary to perform end access of buffer tubes to prepare to splice. This is for craftspeople who perform only splicing, not cable prep. Contents: LST-000-165. The kit includes a soft, nylon bag.
