TE Connectivity’s (TE) FTTX infrastructure solutions are designed from the ground up to meet the unique requirements of FTTX networks. Designed for operational efficiency and scalability, TE’s FTTX solutions simplify network installation, maintenance and management from the central office/head end, to the mobile switch center, cell site and outside plant.

The Mini Rapid Fiber Distribution Terminal (RDT) is a compact, high-density, fiber box solution, designed to speed installation requirements on the customer premises. Utilizing the patent-pending RapidReel cable payout spool, the Mini RDT deploys up to 100’ of plenum and 50’ of indoor/outdoor 12-fiber cable. Longer cable lengths available on an external spool. The multifiber cable terminates to a multifiber push-on connector (MPO), which ensures fast cable routing and handling by technicians. For service turn-up, the Mini RDT features up to 12 SC/LC fiber ports for fast, plug-and-play drop cable connections.

The Mini RDT is a cost-efficient system for deploying and managing fiber networks within small to mid-sized multiple dwelling unit (MDU) and multiple tenant unit (MTU) environments.

**BENEFITS:**

- **Cost Savings:** RapidReel cable payout spool reduces upfront deployment costs by eliminating site survey inspections, reducing labor hours and streamlining cable requirements

- **Reduced Labor:** Preconnectorized plug-and-play solution eliminates splice labor requirements and speeds network construction

- **Easy Access:** Technician friendly, the Mini RDT provides easy access to connectors for service and maintenance
FTTX Solutions
Mini Rapid Fiber Distribution Terminal (RDT)

Typical Fiber-to-the-Premises Application

Central Office/Head End

- Feeder
- Distribution
- Drop

Micro RDT

Medium-Rise MDU

High-Rise MDU

Residential

Horizontal MDU

Low Rise/Garden MDU

Typical Wireless Connectivity Application

- Cell Site
- Mobile Switch Center/Data Center

Mini RDT

CELL SITE

MOBILE SWITCH CENTER /DATA CENTER
**FEATUeS**

• Compact design: 200 x 140 x 60 mm

• RapidReel cable payout spool deploys up to 100’ (30 m) of stubbed cable

• External spool included for plenum cable lengths over 100’ (30 m) and indoor/outdoor cable over 50’ (15 m)

• Cable can be factory terminated with a low-loss MPO connector

• Equipped with 4, 8 or 12 adapter ports

• Plastic construction – no grounding required

• Removable cover and adapter housing

• Screw mounts to a wall or flat surface

• Security screw holds cover in place

• Flexible cable routing: Distribution cable can exit from bottom or side of unit

**BENEFITS**

• High-density, flexible solution for deploying and managing fiber optic connections within fiber-to-the premises (FTTP) architectures

• Plug-and-play system eliminates costly splicing requirements

• Innovative RapidReel cable payout spool ensures fast cable deployment and provides storage for excess cable

• Low profile design allows unit to be installed in niche spaces—walls, corridors, behind ducts or other existing equipment

• Reduced bend radius fiber and intuitively designed cable paths eliminate attenuation and signal loss

• Shatter-resistant plastic enclosure minimizes corrosion, dust and moisture entry

• Hinge mechanism locks cover in open position for unhindered technician access

3 mm 24 Fiber Zip Plenum Rated Microcable

SPECIFICATIONS

JACKET COLOR
- Singlemode Plenum Rated: Ivory
- Multimode OM3: Aqua

ENVIRONMENTAL
- Storage temperature: -40° to 70° C (-40° to 158° F)
- Operating temperature: 0° to 70° C (32° to 158° F)
- Installation temperature: 0° to 50° C (32° to 122° F)

MECHANICAL
- Number of Fibers: 24
- Maximum tensile load
  - Short term: 660 N (150 lbf)
  - Long term: 200 N (45 lbf)
- Minimum bend radius
  - Installed: 30 mm (1.18")
  - Loaded: 60 mm (2.36")
- Maximum compression: 10 N/mm (57 lbf/in)
- Maximum impact: 2.94 N•m (2.17 lbf•ft)

COMPLIANCES

- Telcordia GR-409-CORE Interconnect Category,
  - Impact and compression compliant to horizontal and vertical backbone cable requirements
  - Tensile compliant to horizontal backbone cable requirements
- UL 910 plenum flammability rating
- EIA/TIA FOTPS
- EIA/TIA 568-B
- NFPA 262, NEC OFNP, FT-6
- Restriction of the use of hazardous substances. RoHS (2002/95/EC)
- Comply with California Prop 65 for Safe Drinking and Toxic Enforcement Act

¹ Reduced Bend Radius Fiber is compliant to ITU-T G.652.D, ITU-T G.657A&B, and IEC 60793-2-50 Type B.1.3
