

EASY & EFFECTIVE, EMERGENCY PEDESTAL PROTECTION

THE PROBLEM

Exposed conductors due to damaged pedestals are frequent, costly and a service affecting nuisance.

You never have time and/or materials on hand to permanently remedy these problems the time you first discover them.

Many of these irregular plant conditions must wait weeks or even months before it is practical to correct them.

ONE ANSWER

Step 1 – Waste time trying to fashion a durable, weatherproof wrap from slicker cloth or a lightweight garbage bag and a lot of vinyl tape.

Step 2 – Drive away praying that the wrap job lasts until a permanent repair can be made.

THE SOLUTION

EBags – water-proof, sun-proof, wind-proof, easy.

Made of extremely durable (8 mil thick) poly material and loaded with Ultra Violet inhibitors to ensure effective, economical, long-time protection.

A BETTER ANSWER

Step 1 – Quickly slip Ebags over the problem and secure the bottom with a couple wraps of vinyl tape.

Step 2 – Drive away knowing you won't have to return to this spot until you come back to make a permanent repair.

IT ACTUALLY COSTS LESS TO DO IT RIGHT!

Conveniently packaged on a compact roll.

Available in three sizes to fit peds up to 16" in diameter.

| | | |
|-------------------|-----------------|-------------------|
| Model #E8 | 8" x 8" x 36" | 25 Ebags per roll |
| Model #E12 | 12" x 12" x 36" | 25 Ebags per roll |
| Model #E16 | 16" x 16" x 36" | 25 Ebags per roll |
