Rechargeable LED Work Light

DESCRIPTION

The Fuse LED Rechargeable Work Light uses a 10 Watt, High Power, Cool White surface mounted LED. This light produces up to 1900 lumens with a wide 120 degree beam pattern. The Built-in rechargeable Lithium ion battery will keep any work area lit for up to 3.2 hours without a cord, and recharges in 6 hours.

Fuse LED uses a IP65 weatherproof aluminum housing with tempered glass lens, charging indicator, and weatherproof switch. Our light features a sturdy steel tube stand that adjusts to a variety of convenient angles to give you light wherever you need it. A 100-240VAC charger and a 12V DC car charger are included with each light.
