

PRIMEX

Product Specification Sheet

PRODUCT MODEL
CODE

P1500RFoG

Outdoor RFoG Enclosure

1. PRODUCT SUMMARY

Primex's P1500RFoG is a platform agnostic indoor/outdoor enclosure that allows the use of multi-vendor CPE's in one single housing. The dual purpose fiber spools allow for fiber slack storage and connector parking as well as mounting of the CPE unit.

Also included is Primex's patented tool-less, no-strip toggle strain relief clamp and grommet system. This industry-first strain relief clamp system achieves mechanical strain relief on connectorized harded drop cables without expressing the sheath to tie-down the strength member.

2. PRODUCT DIMENSIONS

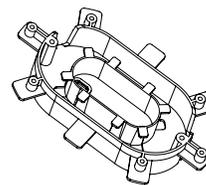

Inside H 14.1"/W: 10.0"/D: 3.5"

3. FEATURES & BENEFITS

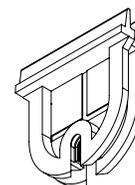

- Ideal for RFoG applications with fiber tray and rock drop clamp for cable management.
- Patented Tool-Less Strain System and platform agnostic CPE Mounting.
- Integrated grip pattern for optional SCTE platform splitters.
- Weather proof design with optional NEMA 4X.
- Dual snap locks to ensure lid seals to base.
- Fast and easy servicing with 3 x 1" entry/exit ports.
- Mounting hole pattern for versatile component installations.
- Allow 24/7 secure access by a service technician with the available override or F81 locking mechanism.
- Deploy quickly and easily with External Wall and Pole Mounting Brackets that eliminate the need to drill through box.
- Provides easy and secure access via a hinged lid and snap lock.

4. CONFIGURATIONS

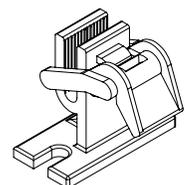

SC	Description
125-1204	P1500RFoG

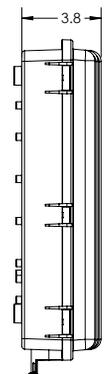

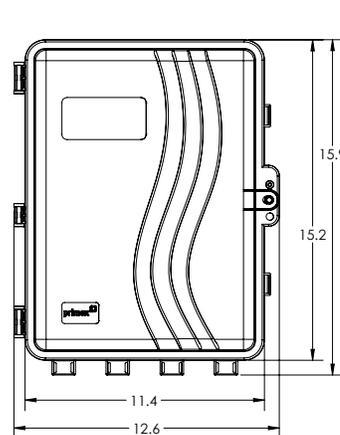

Fiber tray

Rock drop grommet

Rock drop clamp
