THE NEW BUCKHORN ADJUSTMENT LEVER AND LOOP HANDLE.

BUCKINGHAM MFG
BUCK
SINCE 1898

A New Integral Loop Handle on the outer strap provides a more ergonomic position for the user's hands. The one handed adjustment of the inner strap can easily be configured to use a rope or web strap.

The Buckhorn™ allows for

slight adjustments with full weight on unit and rapid disengagement with one hand. The handle provides immediate centered placement of hands for comfortable movement.

The EZ Squeeze™ also has the ability to be used by right

or left handed users and has 3600 lbf. gate rated hardware. It fits many climbing styles and needs. The modular design makes it easy to change out worn or damaged components or straps in the field.

Meets ASTM F887-13.
