Cable Termination Tools

RG6/11 Hex-Crimp Tool

HX-009

2-Cavity 9˝ Hex Crimp Tool for RG6 and RG11 Coaxial Cable Terminations – Cost-Effective Consistent Precision Crimping Action – Hex Die 0.324˝ and .475˝ Openings – Star-wheel adjustable jaw-tension provides firm connector to cable bonding – High-lever action mechanism minimizes required hand pressure for increased productivity – Large grip handles minimize hand stress for effortless operation – High quality craftsmanship ensures long life – High-Carbon Hardened Steel Construction – Weight 1.41lb.

RG59/6 Hex-Crimp Tool

HX-596 Series

2-Cavity 9˝ Hex Crimp Tool for RG59 and RG6 Coaxial Cable Terminations – Cost-Effective Consistent Precision Crimping Action – Star-wheel adjustable jaw-tension provides firm connector to cable bonding – High-lever action mechanism minimizes required hand pressure for increased productivity – Large grip handles minimize hand stress for effortless operation – High quality craftsmanship ensures long life – High-Carbon Hardened Steel Construction – Available in dual and quad-shield versions – Weight 1.45lb.

HX596   RG59/RG6-Regular 0.255˝ and 0.324˝ Hex Die
HX596Q   RG6-Regular/RG6-Quad 0.324˝ and 0.360˝ Hex Die

PermaSeal™ Compression Tool

PFC-001

PermaSeal ™

8$\frac{1}{2}$˝ Universal Compression Tool for RG59 and RG6 F Compression Fittings – Used with Pico Macom's PermaSeal-II and most compression type connectors – Closure Dimension 21mm – Positive force tension provides maximum connector to cable bonding – Precision One-Cycle Ratcheted Mechanism – Back Pressure Release Lever – High-lever action mechanism minimizes required hand pressure for increased productivity – Large grip handles minimize hand stress for effortless operation – High quality craftsmanship ensures long life – High-Carbon Hardened Steel Construction – Weight 1.0lb.
