

WHAT WE SELL

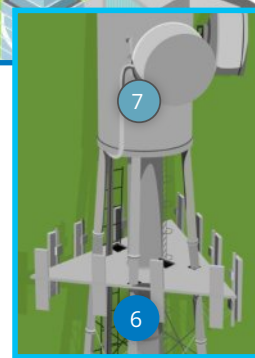

- 1 Cat 6A cable
- 2 Jumpers (coax and fiber)
- 3 Broadband radios
- 4 Microwave radios
- 5 Mounting
- 6 Grounding
- 7 Fixed wireless

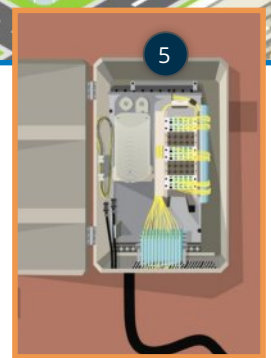

Point-to-Point Wireless

Point-to-Multipoint Wireless

Wireless Backhaul (Microwave)

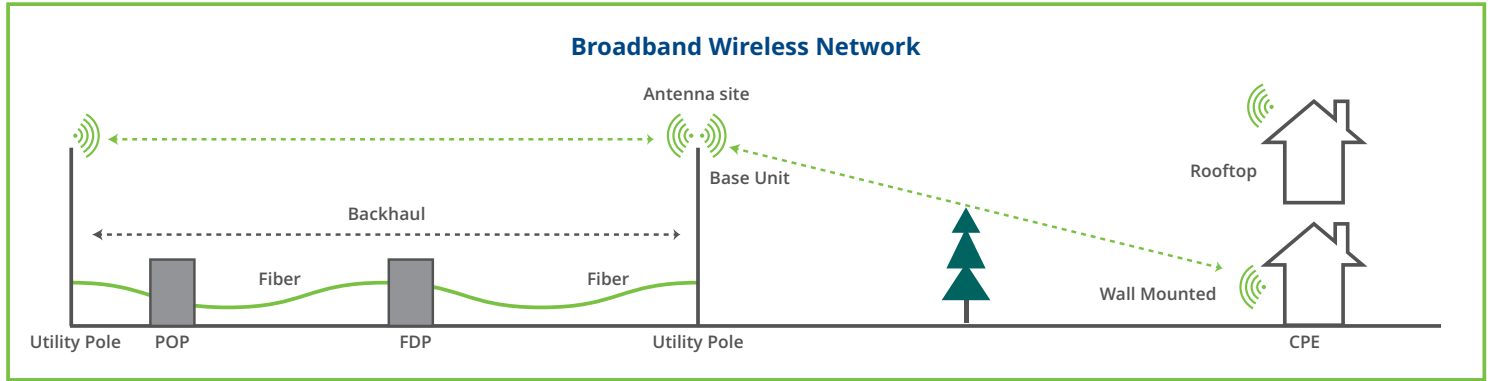

Edge Point of Presence

Fixed wireless is an ideal solution to provide broadband service in multiple last mile environments, including enterprise, smart city, and rural settings.

TVC has successfully launched numerous point-to-point and point-to-multipoint wireless networks for business and residential applications, creating the last connection in fiber-based networks for fiber deep, backhaul, and RDOF builds.

As leaders in wireless technology, TVC has partnered with the leading suppliers and, coupled with our own design, engineering, project management and supply chain services, we will deliver the right solution for your project.

Alliance PartnersSM: TVC's Alliance Partners provide solutions designed to connect the world's most important systems. Our partners help organizations operate more efficiently and securely while maximizing value.
