

Tel-A-Marker™ Signage System

Components:

Carefully plan your identification requirements...indicating specific copy: warning message, product message in-line, toll free call number and company name (ID/logo); plus, component colors and quantities.

Recommended Communication Post:

- A. Overall length is 8', which allows for 6' to show above ground.
- B. Two (2)-sided sign.
- C. Black lettering on orange top fitting; plus, white post.

System Colors:

Standard Colors: White, Orange, Yellow, Blue, Green, Brown, Red

Custom color options for special company ID/logo applications where two or more additional colors are required: Up to any four (4) colors -

Example: Adding blue, white, and red for a corporate ID/logo
